WASHINGTON, D. C., May 8.—Creation of a national commission on coal production to increase the mining output and to accelerate distribution is announced by the council of national defense.

SAMUEL GOMPERS APPEALS TO INDUSTRIAL ELEMENT OF RUSSIA

(By Associated Press.)

WASHINGTON, D. C., May 8.—A plea against a premature peace for Russia and renewed assurance that American wage workers and the American people are in hearty sympathy with the Russian democratic movement are included in a long cablegram sent by President Samuel Gompers of the American Federation of Labor to the executive council of the council of workmen's and soldiers' deputies at Petrograd.

Speaking for organized labor in this country, Mr. Gompers also expresses complete confidence in the purposes and opinions of the American war mission soon to go to Russia. Although he does not mention specifically the recent attacks on Edith Root, who will head the mission, the labor leader denounces as criminal and pro-German any suggestion that the members will seek to interfere in Russia's internal affairs or will give any advice except with the purpose of combating the common enemy.

Foreboding annexations are condemned, but Mr. Gompers pleads that every people affected by the war should in the end be free to choose their allegiance. Punitive indemnities also are denounced and hope is expressed that leaders of the working classes of the central empires will cease plotting for an abortive peace and will bring real peace by overthrowing the autocracies of Hohenzollern and Hapsburg.

The message, timed to aid in combating the pro-German agitation apparent during the last few days in Russia, was cabled yesterday. Its full text was made public last night.

FRENCH MISSION HONORS LINCOLN

PLACE WREATHS ON THE TOMB OF THE EMANCIPATOR IN ELOQUENT SILENCE

(By Associated Press.)
SPRINGFIELD, Ill., May 8.—The French mission to the United States paid tribute to the memory of Lincoln at the emancipator's tomb here yesterday and received an enthusiastic welcome to the capital of Illinois.

Marshal Joffre silently placed a wreath on the Lincoln sarcophagus. With bowed heads and doffed caps, the hero of the Marne, Rene Viviani, vice-president of the French council of ministers, and the military and civil officials who accompanied them, filed into the tomb, paid honor to the war president and left without a spoken word.

CAREY MINE OF MONTE CRISTO SENDS OUT ITS FIRST LOAD OF ORE

Four Tonopah boys have developed a mine from the prospect stage and now enjoy a day off in Tonopah after seven months of ceaseless work. The production of the first carload is the hardest part of the job, as it was necessary to get out every pound with a whip rigged over a sheave and hooked onto an automobile which walked away in a straight line when the signal to hoist was given. In this way the boys brought a carload to the surface and hauled the ore to Millers where it is being loaded today. It is estimated that the ore will run \$92 per ton with the values in gold, silver and lead, with a little iron.

The mine is the Carey, situated in the Monte Cristo district, 23 miles west of Tonopah, and the development has been carried to a depth of 200 feet where the sulphide zone was reached. The first shipment is consigned to Selby's. The next shipment will be made after the owners improve their arrangements by installing a power hoist and, possibly, a small compressor, to make regular production. The property is owned by F. O. Gilbert, Logan Gilbert, A. B. Cook and J. B. Bell, all of Tonopah, who believe they have one of the best little mines in the southern country.

They declared nobody had any idea that the war was a partisan affair, but that the president had not consulted any Republican senator, nor had he told any administration leader, until the senate modified the section, his reason for desiring it passed in stronger terms. It would help, the Republican senators said, if the president would take into his confidence one or more Republican senators on important legislation that they might transmit it to their colleagues.

INDIVIDUALS MUST BACK UP THE BANKS

(By Associated Press.)
WASHINGTON, D. C., May 8.—Tabulation of replies received from banks and bankers showed no diminution in the rate at which subscriptions are pouring in. Thirty-five of the chief cities of the country offered to take \$104,846,000 worth of the bonds yesterday in addition to previous offers, bringing their total up to \$326,976,000 for the three days during which subscriptions have been received.

"The telegrams now reaching the department," Mr. McAdoo said, "are in response to a request made of banks and bankers to give a rough estimate of the amount of bonds each bank and its customers would be likely to take. It must not be assumed, therefore, that the replies are actual subscriptions to the bonds. They are estimates of subscriptions. Encouraging as they are, there must be no abatement in the patriotic effort of every citizen to make this loan an overwhelming success."

CRITICISM AIMED AT THE PRESIDENT

(Continued from Page One.)

tries through which goods were found to be reaching the enemy. This action was preceded by a five-hours debate in executive session, during which for the first time since the United States went to war with Germany there was vigorous and continued criticism of President Wilson.

Republicans led the attacks, which were not directed at the president's conduct of the war, but his failure to consult with members of congress about the legislation proposed to enable him successfully to carry it on. Senator Martine stated when the doors were closed that the president would be embarrassed by the amendment put in last week, and that the senate should now reverse itself. He said the government has reason to believe that American exports were getting to Germany through Holland and Switzerland. Senator Walsh said that on instance showing the need of a stronger provision was found in the fact that Spain now is limiting exports of certain articles needed by England which she formerly allowed to go in larger amounts. With a strict embargo law in the United States, he suggested, the administration might help an ally by restricting exports to Spain.

Senators Lodge, Knox and Fall called attention to the fact that the senate had no advance information on reasons for enactment of a strict embargo section.

They declared nobody had any idea that the war was a partisan affair, but that the president had not consulted any Republican senator, nor had he told any administration leader, until the senate modified the section, his reason for desiring it passed in stronger terms. It would help, the Republican senators said, if the president would take into his confidence one or more Republican senators on important legislation that they might transmit it to their colleagues.

CAVALRY RECRUITS EASILY ENLISTED

(By Associated Press.)
SYDNEY, New South Wales, May 8.—W. M. Hughes, the prime minister of Australia, addressed a mass meeting of 20,000 here recently, appealing for recruits. While he was speaking some troopers of the Light Horse led into the square 50 horses, without riders, carrying cloths inscribed "Who will fill an empty saddle?"

Mr. Hughes pleaded: "You are living; you are Australians; your country is in danger. God will be with you."

Within ten minutes every horse had a rider, and the jangling bits and clatter of hoofs roused the crowd to a state of intense excitement. Before the meeting adjourned, a larger number of recruits had been enlisted than at any similar meeting this year.

EARLY MORNING SHOWER PASSES OVER THE CAMP

If you were in a wakeful mood this morning between four and five o'clock you might have heard the gentle patter of the first May shower sprinkling your roof. The moisture was not harmful for the weather man reports that it did exceed four one-hundredths of an inch. This afternoon the weather was varied between showers by a few distant peals of thunder.

AMUSEMENTS

BUTLER THEATER
The feature at the Butler this evening is a Lasky production entitled "The Years of the Locust," a powerful drama of diamonds and hearts, with the versatile and charming Fannie Ward in the leading role. The production contains a remarkable coincidence of rare dramatic interest in the fact that Miss Ward's former husband was Joe Lewis, a South African diamond king, and in the wedding for the photodrama she wears the same gowns and veil which she wore in real life when she was the most sought after actress in English society. The beautiful wedding veil worn in the marriage scene is made of Brussels applique lace, hand made, and nearly 200 years old. It was formerly worn and owned by the Arch Duchess Isabella, of Austria, who before she was assassinated gave it to her sister, the Countess d'Oltramar, who presented it to Miss Ward in London.

The Ford Animated Weekly this week takes you on a trip through Philadelphia, showing all the principal points of interest in the Quaker City.

LIBERTY THEATRE

Today: Four piece orchestra, Herman Albert, 'cello; Joe Monaghan, cornet; Fred Thomas, piano; Wm. Young, drums. During the first show, Robert Warwick, in "The Man Who Forgot," in five parts. "The Man," revolting against the overpowering influence of opium and drink, is saved by a mission in America, where, unable to recall his name or past, he is registered as John Smith. Five years later he is the leader in a national prohibition movement.

He meets and falls in love with Edith Mallon, daughter of Senator Mallon, who is under the control of the whiskey trust. After a series of dramatic incidents, during which he is tormented by doubts of his past, he wins out in his arguments against whiskey and in the conclusion his past is revealed to him in the eyes of the girl he loves. Uncle Sam's defenders, "Our Boys on the Border," interesting and educational, showing the daily life of the U. S. soldiers.

Tomorrow: "The Honor of Mary Blake," a Bluebird in five parts, featuring Violet Mersereau. A gripping romance of theatrical life.

MARRIAGE LICENSE ISSUED TO RECRUITING OFFICER

Larry Glass has been watching for slackers to come along in quest of marriage licenses and he had about made up his mind what to do to any one who applied, but he was thunderstruck when a nobly attired young man in the full service dress of the regular army applied for a permit to wed. Larry was there with his pen and quick as a flash he issued the proper credentials for he knew this young man was not dodging the chance of going to the front. The license bears the name of "Joseph Smith, recruiting officer, U. S. A." and Miss Rose Floyd, the latter is the charming daughter of Mrs. M. Floyd, of Erie Main street.

SLAVE LABOR SUIT FINALLY DISMISSED

(By Associated Press.)
WASHINGTON, D. C., May 8.—The supreme court dismissed the celebrated suit brought by former negro slaves and their heirs to collect \$68,072,388 from the government for labor upon crops in the south from 1857 to 1868. The money was collected as internal revenue taxes on cotton. The claim was made that the money was due them for work performed while in a state of involuntary servitude.

With a delightful fragrance of balmy spring, the aromatic news comes from the south that Texas onions are to be cheaper—several cents a hundred.—Spokesman-Review.

FARMS AND ARMS WILL WIN THE WAR

MAN WITH THE HOE AS NECESSARY AS THE MAN WITH THE GUN

(By Associated Press.)

DECATUR, Ill., May 8.—M. Viviani made the following statement here: "This war is not a war of cannon, of munitions, of courage in the fighting line alone; its continuation and final success depends as much on the farmers as on the soldiers and the services rendered by those who cultivate the soil cannot be overestimated."

"Every bushel of wheat, every peck of potatoes counts as much as shells and bullets, and even more."

"In such a war as this all must serve, if it is to be brought to a quick and victorious conclusion. The farmer and his field fights the common foe as efficiently as the soldier in the trench."

"In France our children even have been taught to cultivate gardens and every spot of available land."
